General English

Renewable 1-year contract

Bishkek, Kyrgyzstan

[Technical School of Innovation](#) (TSI) is an original 3-year educational institution combining specialized professional training with a strong liberal arts core curriculum. TSI offers the following majors: Startup Finance and High Technology; New Entrepreneurship and Human Intelligence; Design Management and Design Thinking; Software Engineering and Social Transformation; Ecology and Energy Efficiency; Design and High Technology.

TSI is searching for a faculty member (open rank) to teach **General English** (weekly 80-minute classes) to its juniors.

The course focuses on developing effective strategies and skills for writing in an expository and argumentative way. Adherence to the conventions of standard written English in sentence structure, grammar usage, punctuation and spelling is expressed. A strong emphasis is put on fostering problem-solving and critical thinking competencies. Students will engage in a variety of learning activities which strengthen positive attitudes and confidence in writing. They will also deal with assigned readings, oral and/or verbal responses to readings, revising and editing, peer evaluation, and practice exercises over grammar/punctuation/usage topics. Self-study component aims at harnessing independent learning abilities in students.

The main aim of the course is to improve students' academic writing skills which are relevant to real-world encounters in a college environment.

MINIMUM QUALIFICATIONS

- Master's / PhD degree in any discipline in the Linguistics or Humanities.
- Teaching experience;
- Native or near-native English speaker.
